

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

INTRODUCTORY.

The seventh annual report of Industrial Accidents for the State of Illinois, is compiled from accidents reported under three different laws.

Part I of this report comprises accidents which occurred between January 1, and June 30, 1913, which were reported to this Bureau by employers who were operating under an Act entitled, "An Act to promote the general welfare of the people of this State, by providing compensation for accidental injuries or death suffered in the course of employment," in force May 1, 1912; repealed June 30, 1913, known as the Workmen's Compensation Act.

Section 19 of this Act provided as follows:

"It shall be the duty of every employer within the provisions of this Act to send to the secretary of the State Bureau of Labor Statistics in writing an immediate report of all accidents or injuries arising out of or in the course of the employment and resulting in death; it shall also be the duty of every such employer to report between the 15th and the 25th of each month to the secretary of the State Bureau of Labor Statistics all accidents or injuries for which compensation has been paid under this Act, which accidents or injuries entail a loss to the employee of more than one week's time, and in case the injury results in permanent disability, such report shall be made as soon as it is determined that such permanent disability has resulted or will result from such injury. All such reports shall state the date of the injury, including the time of day or night, the nature of the employer's business, the age, sex, conjugal condition of the injured person, the specific occupation of the injured person, the direct cause of the injury and the nature of the accident, the nature of the injury, the length of disability, and in case of death, the length of disability before death, the wages of the injured person, whether compensation has been paid to the injured person, or to his legal representatives or his heirs or next of kin, the amount of compensation paid, the amount paid for physicians, surgeons, and hospital bills, and by whom paid, and the amount paid for funeral or burial expenses, if known. The making of reports as provided herein shall release the employer covered by the provisions of this Act from making such reports to any other officer of the State.

Under this law there was reported for the six months, 186 fatal and 7,909 non-fatal accidents.

Of the 186 employees killed, settlement was made in 88 cases, the heirs of these deceased employees receiving as compensation for their death \$201,379.64 or an average of \$2,288.40. This shows that the families of 47.31 per cent of the men killed, received what might be considered a good settlement without the trouble and expense of a law suit, not to mention the long wait they probably would have had while these cases were in litigation.

In addition to compensation there was also paid out \$2,196.68 for medical services in 49 cases where the employees were not instantly killed.

The 186 employees who met with fatal accidents while in the course of their employment left 115 widows and 252 children, while the total number of persons depending on them for support were 374.

The average weekly wages of the workmen killed was \$16.05 and the average age is shown to be 37 years.

Of the 7,909 employees who met with non-fatal accidents 7,492 received as compensation the aggregate sum of \$284,079.53 or an average of \$37.92 each.

In 3,367 cases \$64,796.82 was paid out for medical services, this being an average of \$19.24 each.

In addition to this, there was a considerable amount paid for medical services by large employers of labor many of whom retain physicians by the year to look after their injured employees, such physicians being paid a regular salary, and of these we have no record.

For both fatal and non-fatal accidents it is shown that the employers have paid out in the cases settled \$552,452.67. This amount will probably be increased considerably by the time this report is in the hands of the public, as many of these cases are in course of arbitration and will probably be settled between the time of compiling this report and its publication.

Part II of this report is comprised of accidents reported to the Bureau of Labor Statistics by employers under the general accident law of 1907, and also those reported to the Chief State Factory Inspector under the law for the Safety and Comfort of Employees in force January 1, 1910. These accident reports are sent to this office by the Chief Factory Inspector so they may be tabulated in our industrial accident report as the factory inspection department publishes no report concerning accidents to employees.

The non-fatal accidents reported to this Bureau entail a loss of 30 or more days time to the injured employee, while those reported to the Chief Factory Inspector entail a loss of 15 or more days time.

There were reported to the Bureau of Labor Statistics under the 1907 law, 317 fatal and 1,225 non-fatal accidents, and to the Chief Factory Inspector under the 1910 law, 23 fatal and 871 non-fatal accidents making a total of 340 fatal and 2,096 non-fatal accidents. These accidents are tabulated as Part II of the report.

The employers of these 340 killed and 2,096 injured workmen rejected the Workmen's Compensation law. It is therefore impossible to show the amount of compensation the dependents of the killed workmen received, or the amount received by these injured employees.

It is true the Workmen's Compensation law took away from the employer the three common-law defenses, thus giving a much better chance of recovering damages than formerly.

The 317 fatally injured reported under the 1907 law to this Bureau left 516 dependents, and it will be seen that the 1,225 workmen injured had 2,228 dependents. This information is not shown in the cases of the 23 killed and 871 injured reported to the Chief Factory Inspector.

PART I OF INDUSTRIAL ACCIDENT REPORT.

Part I of this report is comprised of 186 fatal and 7,909 non-fatal accident reports, these being the accidents reported to this Bureau by employers who were operating under the Workmen's Compensation law, which law went into effect May 1, 1912, and was repealed June 30, 1913.

Table 1 is a summary of all accidents reported for the last six months this law was in effect, both fatal and non-fatal.

Five hundred fifty-two thousand four hundred fifty-two dollars and sixty-seven cents was paid out as compensation and for medical services, by the employers of the 186 killed and 7,909 injured.

TABLE 1—*Summary of the Fatal and Non-Fatal Accidents by Industries, Showing the Number Killed and Injured in Each, Also the Number in Each Class Reporting Compensation and Medical Services, Together with the Total Cost of All Accidents from January 1, to June 30, 1913.*

a Five (5) cases no wages reported; six (6) no compensation; and eight (8) no medical and other services.

b One (1) case no wages reported; five (5) no compensation; and nine (9) no medical and other services.

c One (1) case no wages reported; thirty-two (32) no compensation; and forty-five (45) no medical and other services.

d One (1) case no wages reported; three (3) no compensation; and six (6) no medical and other services.

e Fifteen (15) cases no wages reported; twenty-three (23) no compensation; and thirty-four (34) no medical and other services.

f Three (3) cases no compensation reported; and six (6) no medical and other services.

g Five (5) cases no wages reported; twenty-six (26) no compensation; and twenty-nine (29) no medical and other services.

MONTHS IN WHICH FATAL ACCIDENTS OCCURRED.

Table 4 presents by months the fatal accidents. It will be seen that 9 of these accidents happened during 1912 but were not reported until 1913, and are therefore included in this report.

TABLE 4—*Fatal Accidents by Months, January 1, to June 30, 1913.*

Industry.	Total.	January.	February.	March.	April.	May.	June.	Fatal accidents of 1912 reported in 1913.
Coal mining.....	20	4	3	5	5	3

a One occurred in September, one in October and one in November, 1912.

b One occurred in July, and one in September, 1912.

c One occurred in November, and one in December, 1912.

d One occurred in June, and one in September, 1912.

CLASSIFIED AGE PERIODS.

Table 5 presents the classification of the age of those meeting with fatal accidents.

The largest number for any one period was 33, these being between the ages of 25 and 30 years, while the average age of all is shown to be 37 years.

TABLE 5—*Classified Ages of the Workmen Killed from January 1, to June 30, 1913.*

Industry.	Under 20.	20 but under 25.	25 but under 30.	30 but under 35.	35 but under 40.	40 but under 45.	45 but under 50.	50 but under 55.	55 but under 60.	60 and over.	Not reported.	Total.	Average age.	Conjugal relations.

26	26			2 62			Helper.....	47	1	1	1	1	1	1	2:15 p. m.	Caught between car and prop.

Table 8—Fatal Accidents—Continued.

CONTRACTING.

Date of injury.	Date of death.	No. of days lost previous to death day	No. of hours compensated day's work after accident.	Wages of deceased.			Total amount of compensation paid.	Total amount paid for medical, surgical, and hospital services.	Occupation.	Age.	Married.	Single.	Widow or widower.	Children.	Dependents.	Hour of accident.	Cause of death.
				Month.	Week.	Day.											
1913.	1913.																
Jan. 18	Jan. 18						\$ 50		Ironworker.	31	1	1	1	1	1	10:30 a. m.	Caught between engine and crane.
Feb. 6	Feb. 6						5 44	\$ 864 53	do.	28	1	1	1	1	2	9:30 a. m.	Fell down elevator shaft.
Mar. 24	Mar. 24						3 50	3,180 01	Roofing.	38	1	1	1	1	2	11:00 a. m.	Gasoline explosion.
May 15	May 15						\$14 00	2,700 00	Lineman.	26	1	1	1	1	2	9:20 a. m.	Fell from pole.
May 18	May 18						3 20		Laborer.	20	1	1	1	1	4	6:30 p. m.	Run over by car.
June 11	June 11						21 00		do.	38	1	1	1	1	2	4:15 p. m.	Falling brick.
June 28	June 28						17 60		Engineer.	40	1	1	1	1	3	10:00 p. m.	Heart disease.
June 16	June 16						12 00	150 00	Laborer.	32	1	1	1	1	2	11:00 a. m.	Run over by car.
									do.	69	1	1	1	1	1	8:30 a. m.	Ditch caved in.

MANUFACTURING.

1912.	1912.																
Sept. 26	Sept. 26						\$3 00	\$3,500 00	Boiler maker.	55	1	1	1	1	2	4:30 p. m.	Struck with swinging boiler.
Oct. 16	Oct. 16						\$67 50	75 75	Iron worker.	37	1	1	1	1	3	4:40 p. m.	Fell from building.
Nov. 9	Nov. 9						\$35 00	1,750 00	Leadburner.	35	1	1	1	1	2	11:30 a. m.	Fell into acid tank.
Jan. 4	Jan. 4						\$ 63 00	\$ 27 37	Filterman.	46	1	1	1	1	1	1:00 a. m.	Finger injured, blood poison; pneumonia.
Jan. 6	Jan. 6						\$2 53	2,700 00	Craneman.	29	1	1	1	1	1	1:55 p. m.	Ho metal.
Jan. 6	Jan. 6						2 00	1,638 96	Laborer.	31	1	1	1	1	1	3:10 p. m.	Falling skids.
Jan. 12	Jan. 12						20 00	122 70	Millwright.	45	1	1	1	1	1	9:00 a. m.	Ran silver into knee, blood poison.
Jan. 12	Jan. 12						70 00	19 83	Teamster.	24	1	1	1	1	3	6:00 p. m.	Horse and stall.
Jan. 12	Jan. 12						17 01	25 00	Charger.	46	1	1	1	1	2	11:00 a. m.	Scalded, hot water.
Jan. 13	Jan. 13						2 88	3,500 00	Helper.	23	1	1	1	1	3	9:00 p. m.	Run over by car.
Jan. 13	Jan. 13						2 90	3,500 00	Charger.	21	1	1	1	1	3	1:45 p. m.	Caught between bridge and truck.
Jan. 13	Jan. 13						3 25	3,500 00	Helper.	21	1	1	1	1	1	11:30 p. m.	Fell from platform.
Jan. 13	Jan. 13						3 25	3,500 00	Helper.	21	1	1	1	1	1	2:30 p. m.	Caught in shafting.
Jan. 13	Jan. 13						3 42	2,918 74	Laborer.	33	1	1	1	1	1	2:30 p. m.	Falling crane.
Jan. 22	Jan. 22						10 50	1,700 00	Craneman.	33	1	1	1	1	1	3:00 a. m.	Falling paper.
Feb. 3	Feb. 3								Cutter boy.	20	1	1	1	1	1		

Day	Month	Time	Age	Sex	Occupation	Wage	Hours	Notes
7	Mar.	13	84	M	Picker	2 84	41	Flying board.
10	Mar.	13	84	M	Iron worker	142 15	30	Fell from building.
13	Mar.	13	84	M	Lineman	3 15	28	Electrocuted.
13	Mar.	13	84	M	Foreman	2,700 00	51	Fell from platform.
15	Mar.	13	84	M	Foreman	2,700 00	27	Caught in shafting.
15	Mar.	13	84	M	Helper	3,000 00	32	Electrocuted.
16	Mar.	13	84	M	Older	2 70	35	Caught in machinery.
16	Mar.	13	84	M	Leader	2 70	50	Struck by hot slab.
20	Mar.	13	84	M	Trucker	1 75	20	Elevator and floor.
22	Mar.	13	84	M	Lineman	3 00	29	Fell from pole.
23	Mar.	13	84	M	Foreman	2,852 02	35	Falling mould.
16	Mar.	13	84	M	Foreman	3,500 00	35	Fell from scaffold.
16	Mar.	13	84	M	Painter	52 00	35	Elevator and door.
19	Mar.	13	84	M	Painter	95 55	53	Elevator and door.
22	Mar.	13	84	M	Helper	2,300 00	34	Elevator and floor.
24	Mar.	13	84	M	Helper	10 87	24	Caught between car and engine.
24	Mar.	13	84	M	Cutter	2 10	24	Electrocuted.
24	Mar.	13	84	M	Laborer	2 00	21	do
28	Mar.	13	84	M	Superintendent	3 00	41	Falling beam.
28	Mar.	13	84	M	Foreman	2,650 00	34	Caught in belt.
28	Mar.	13	84	M	Machineman	2,500 00	33	Suffocation.
1	Apr.	13	84	M	Laborer	12 00	35	do
1	Apr.	13	84	M	do	12 00	35	do
6	Apr.	13	84	M	do	2 28	35	do
6	Apr.	13	84	M	do	1 92	36	do
9	Apr.	13	84	M	Fireman	14 00	30	Inhaling fumes.
10	Apr.	13	84	M	Laborer	97 25	18	Electrocuted.
13	Apr.	13	84	M	do	2 35	42	Asphyxiated.
15	Apr.	13	84	M	Millwright	2,278 28	59	Fell from crane.
15	Apr.	13	84	M	Mechanic	2,136 00	57	Fell from ladder.
16	Apr.	13	84	M	Foreman	1 1	1 6	Fell down stairs.
17	Apr.	13	84	M	Foreman	4 75	3	Falling casting.
19	Apr.	13	84	M	Helper	300 00	45	Fell from ladder.
21	Apr.	13	84	M	Laborer	275 00	25	Elevator and wall.
28	Apr.	13	84	M	Master	2 40	55	Fell, strangled hernia.
3	May	13	84	M	Wachman	2,887 50	29	Elevator and wall.
5	May	13	84	M	Laborer	2 00	34	Explosion.
6	May	13	84	M	do	1 75	1 1	do
6	May	13	84	M	do	18 60	28	Electrocuted.
12	May	13	84	M	do	2 00	28	Fell from pole.
12	May	13	84	M	do	13 00	64	Fell from wagon.
14	May	13	84	M	Teamster	1 70	63	Arm scratched, blood poison.
14	May	13	84	M	Laborer	2 75	24	Electrocuted.
21	May	13	84	M	Lineman	3,020 00	25	Gun shot wounds.
29	May	13	84	M	Book keeper	2 50	52	do
30	May	13	84	M	Guard	2,583 36	35	Fell from car.
31	May	13	84	M	Chauffeur	12 42	23	Electrocuted.
6	June	13	84	M	Driver	1 98	5	Caught between cars.
5	June	13	84	M	Switchman	3 48	29	Ditch caved in.
6	June	13	84	M	Laborer	1 75	40	Flame.
10	June	13	84	M	Machineman	1,750 00	44	Struck by train.
17	June	13	84	M	Wachman	10 50	58	Caught between automobiles.
21	June	13	84	M	Chaufeur	18 00	44	Electrocuted.
23	June	13	84	M	Lineman	21 00	22	
30	June	13	84	M	Lineman	2 81	22

a Sixty-four (64) cases no wages reported; nine (9), no compensation; and one hundred forty-six (146), no medical and other services.

b Ten (10) cases no wages reported; twenty-three (23), no compensation; and one hundred eleven (111), no medical and other services.

c One hundred sixty-six (166) cases no wages reported; one hundred seventy-four (174), no compensation; and twenty seven hundred seventy-seven (2,777), no medical and other services.

d One (1) case no wages reported; three (3), no compensation; and thirty-seven (37), no medical and other services.

e One hundred five (105) cases no wages reported; one hundred thirty-two (132), no compensation; and six hundred nineteen (619), no medical and other services.

f Two (2) cases no compensation reported; and four (4), no medical and other services.

g Three (3) cases no compensation reported; and five (5), no medical and other services.

h One (1) case no wages reported; one (1), no compensation; and twenty (20), no medical and other services.

i Eighty-two (82) cases no wages reported; seventy (70), no compensation; and eight hundred twenty-three (823), no medical and other services.

MONTHS IN WHICH NON-FATAL ACCIDENTS OCCURRED.

Table 3 presents the number of non-fatal accidents by the months in which they occurred.

Of the 7,909 persons injured 398 were injured during the year 1912, but these accidents were not reported to this office until 1913, and for that reason were tabulated in this report.

TABLE 3—*Non-Fatal Accidents by Months, January 1, to June 30, 1913.*

Industry.	Total.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.
Coal mining	387	87	56	48	59	58	56	2	2	1	4	7	7

* Three hundred ninety-eight (398) were injured in 1912; coal mining, twenty-five (25); contracting, forty-seven (47); manufacturing, one hundred twenty-three (123); railroading, interurbans, eleven (11); railroading, steam, one hundred thirteen (113); stone quarrying, three (3); and miscellaneous, seventy-six (76).

CLASSIFIED AGE PERIODS.

Table 4 shows the classified ages of the employees injured. The largest number during any one period is shown to be 1,580, these being between the ages of 20 and 25 years, while the average age of all is 32 years.

TABLE 4—*Classified Ages of the Workmen Injured, from January 1, to June 30, 1913.*

Industry.	Classification of ages.										Not reported.	Total.	Average age.	Conjugal relations.	
	Under 20.	20 but under 25.	25 but under 30.	30 but under 35.	35 but under 40.	40 but under 45.	45 but under 50.	50 but under 55.	55 but under 60.	60 and over.				Married.	Single.

NON-FATAL ACCIDENTS.

Table 9 presents in detail each non-fatal accident reported to this Bureau under the Workmen's Compensation law for the last six months of its existence.

The accidents are here arranged by industries according to the date of injury.

TABLE 9—*Showing in Detail Each Non-Fatal Accident to Employees in Illinois, Reported under the Workmen's Compensation Law, from January 1, to June 30, 1913.*

COAL MINING.

Date of injury.	Date of recovery.	No. of days lost beginning eighth day after accident.	No. of hours compensating day's work.	Wages of injured person.			Total amount of compensation paid.	Total amount paid for medical, surgical, and hospital services.	Occupation.	Age.	Male.	Female.	Married.	Single.	Wife or husband.	Children.	Dependents.	Hour of accident.	Nature of injury and direct cause.
				Month.	Week.	Day.													
1912.	1912.																		
May 17	June 11	18	8				\$1 67	\$ 480 00	Miner	49	1	1	1	1	1	2	3	12:30 p. m.	Eye destroyed, flying sulphur.
June 12	July 2	13	8				10 70	10 70	do.	33	1	1	1	1	1	4	5	8:30 a. m.	Arm injured, kicked by mule.

	17 Feb.	25	10				34 50	Engineer	40	1	1	1	1	1	1	1	3:00 a. m.	Feet burned, electrica shock.
	17 Jan.	30	6				3 50	Laborer	39	1	1	1	1	1	1	1	3:00 p. m.	Arm sprained, unloading sills.
	17 Jan.	17	22				1 82	Roller cleaner	33	1	1	1	1	1	1	1	8:00 a. m.	Shoulders scalded, hot water.
	19 Feb.	19	10				27 00	Conductor	26	1	1	1	1	1	1	1	9:15 a. m.	Shoulder injured, caught between car and building.
	24 Mar.	5	33				10 84	Laborer	44	1	1	1	1	1	1	1	8:40 a. m.	Thumb broken, falling rail.
	27 Feb.	19	16				11 38	do.	45	1	1	1	1	1	1	1	11:40 a. m.	Back wrenched, lifting.
	29 Feb.	9	4				1 50	Conductor	38	1	1	1	1	1	1	1	11:35 a. m.	Eyes injured, flying copper.
	31 Feb.	28	21				24 36	do.	30	1	1	1	1	1	1	1	10:35 p. m.	Knee injured, fell over switch rod.
	6 Feb.	17	6				6 42	Motorman	42	1	1	1	1	1	1	1	3:20 p. m.	Ankle sprained, getting off car.
	6 Feb.	16	3				2 25	Car repairer	33	1	1	1	1	1	1	1	10:00 p. m.	Toe injured, falling jack.
	10 Feb.	18	1				1 10	Brakeman	25	1	1	1	1	1	1	1	5:10 p. m.	Toes mashed, falling barrel.
	13 Feb.	27	7				7 00	Roller cleaner	23	1	1	1	1	1	1	1	8:30 p. m.	Eyes injured, flying water.
	14 Mar.	18	25				30 00	Lineman	29	1	1	1	1	1	1	1	10:15 a. m.	Wrist sprained, fell from pole.
	14 Feb.	26	5				3 38	Helper	26	1	1	1	1	1	1	1	4:55 p. m.	Eye burned, hot lead.
	17 Mar.	22	26				125 00	Conductor	26	1	1	1	1	1	1	1	11:00 a. m.	Body injured, struck by car.
	18 Mar.	1	4				5 40	Carpenter	45	1	1	1	1	1	1	1	6:45 p. m.	Knee injured, struck car.
	19 Mar.	1	3				3 08	do.	26	1	1	1	1	1	1	1	1:00 p. m.	Body injured, fell from car.
	19 Mar.	1	3				2 05	Motorman	30	1	1	1	1	1	1	1	12:07 p. m.	Fingers burned, electric shock.
	21 Mar.	18	16				14 38	Laborer	44	1	1	1	1	1	1	1	7:45 a. m.	Rib broken, fell from wagon.
	21 Mar.	16	18				18 00	Motorman	21	1	1	1	1	1	1	1	4:55 p. m.	Eye injured, collision.
	22 Mar.	6	5				2 07	Conductor	23	1	1	1	1	1	1	1	6:45 p. m.	Eye injured, flying copper.
	23 Mar.	11	9				8 10	Car repairer	18	1	1	1	1	1	1	1	11:30 p. m.	Wrist sprained, fell from car.
	24 Mar.	5	2				1 89	Motorman	30	1	1	1	1	1	1	1	12:30 p. m.	Thumb cut, door and door jam.
	24 Mar.	8	4				2 14	Conductor	20	1	1	1	1	1	1	1	12:33 p. m.	Body injured, thrown in car.
	25 Mar.	8	13				4 42	Foreman	45	1	1	1	1	1	1	1	5:05 p. m.	Eyes injured, electric flash.
	26 Mar.	8	10				11 26	do.	28	1	1	1	1	1	1	1	5:05 p. m.	Leg broken, fell from wagon.

26	Apr.	14	40	10	60 00	37 00	9 25	Conductor	281	1	1	1	1	1	1	8:50 p. m.	Ankle injured, stepped in hole.
28	Mar.	24	17	10	1 60	47 35	3 25	Car cleaner	189	1	1	1	1	1	1	2:00 p. m.	Hand cut, struck glass.
1	Apr.	9	38	10	3 25	40 10	Conductor	188	1	1	1	1	1	1	6:35 p. m.	Leg injured, struck car.
2	Mar.	9	10	10	50 00	9 45	9 25	Pagageman	153	1	1	1	1	1	1	6:30 p. m.	Foot injured, falling trunk.
5	10	10	1 81	Laborer	152	1	1	1	1	1	1	10:30 p. m.	Ankle sprained, fell into pit.
7	10	10	2 70	Motorman	125	1	1	1	1	1	1	9:15 a. m.	Eyes injured, flying copper.
11	July	1	105	12	55 00	108 25	6 00	Agent	24	1	1	1	1	1	1	11:45 a. m.	Leg broken, falling trunk.
14	Apr.	8	18	10	50 00	14 94	3 00	Porter	41	1	1	1	1	1	1	7:38 a. m.	Legs injured, fell against berth.
14	Apr.	25	39	10	2 20	35 20	3 00	Conveyorman	155	1	1	1	1	1	1	8:30 p. m.	Body injured, fell over valve.
19	May	12	47	10	3 50	68 25	23 30	Car repairman	47	1	1	1	1	1	1	6:00 p. m.	Foot injured, fell from car.
20	Apr.	18	22	10	60 00	108 39	121 27	Electrician	45	1	1	1	1	1	1	6:00 p. m.	Body injured, electric shock.
21	July	16	110	10	1 75	140 35	do.	31	1	1	1	1	1	1	7:35 p. m.	Legs scalded, hot water.
24	May	27	57	10	12 00	48 00	45 00	do.	80	1	1	1	1	1	1	10:30 a. m.	Finger lacerated, caught in crank.
24	Apr.	3	3	10	2 37	2 37	1 85	Conductor	34	1	1	1	1	1	1	6:30 a. m.	Leg broken, falling limb of tree.
24	Apr.	23	23	10	1 75	16 63	15 00	Laborer	28	1	1	1	1	1	1	6:30 a. m.	Fingers mashed, door and door jam.
29	13	10	85 00	3 59	4 00	Motorman	25	1	1	1	1	1	1	2:17 p. m.	Legs burned, hot water.
31	13	10	2 39	17 00	9 00	Foreman	35	1	1	1	1	1	1	7:15 a. m.	Fingers burned, electric shock.
4	Apr.	14	3	10	2 00	3 00	2 00	Repairman	32	1	1	1	1	1	1	1:15 a. m.	Eye injured, electric flash.
4	15	10	9 00	24 16	2 00	Laborer	80	1	1	1	1	1	1	6:00 p. m.	Head burned, electric flash.
7	Apr.	29	15	10	2 40	18 00	3 15	Motorman	26	1	1	1	1	1	1	10:30 a. m.	Eye injured, flying clinker.
12	2	10	3 00	1 50	2 00	do.	33	1	1	1	1	1	1	2:10 p. m.	Body injured, turning brake.
17	May	27	33	10	1 75	23 64	6 00	Car cleaner	19	1	1	1	1	1	1	10:30 p. m.	Thumb mashed, door and door jam.
17	23	10	1 75	16 63	17 69	Laborer	45	1	1	1	1	1	1	11:45 a. m.	Pelvis broken, caught between cars.
18	17	10	1 75	11 37	8 80	do.	27	1	1	1	1	1	1	9:55 a. m.	Toes lacerated, run over by roller.
19	12	10	2 44	19 52	33	Conductor	31	1	1	1	1	1	1	11:30 a. m.	Toe mashed, run over by roller.
21	1	10	2 25	2 25	50	do.	48	1	1	1	1	1	1	1:30 p. m.	Wrist broken, struck with brake handle.
22	13	10	9 00	8 75	2 00	Laborer	36	1	1	1	1	1	1	4:30 p. m.	Foot sprained, fell into pit.
25	6	10	2 00	3 00	2 00	Helper	50	1	1	1	1	1	1	10:50 a. m.	Finger mashed, falling rail.
26	9	10	2 00	5 00	2 00	Station master	20	1	1	1	1	1	1	4:00 p. m.	Body injured, strained, lifting.
27	12	10	85 00	5 45	2 00	do.	42	1	1	1	1	1	1	2:00 p. m.	do.
28	7	10	2 00	1 00	5 45	Motorman	26	1	1	1	1	1	1	8:45 p. m.	Leg injured, falling trunk.
30	5	10	1 75	4 37	Laborer	64	1	1	1	1	1	1	3:39 p. m.	Shoulder cut, collision.
30	June	16	40	10	50 00	31 85	6 00	Car cleaner	64	1	1	1	1	1	1	5:10 p. m.	Arms burned, blaze from furnace.
1	May	21	13	10	1 75	3 50	2 65	Laborer	57	1	1	1	1	1	1	2:30 p. m.	Hip dislocated, fell into pit.
2	June	10	32	10	2 00	182 00	26 00	do.	24	1	1	1	1	1	1	Leg injured, stepped in hole.	
2	10	10	12 00	do.	24	1	1	1	1	1	1	Leg injured, electric shock.	
6	May	20	12	10	2 00	6 00	10 00	do.	85	1	1	1	1	1	1	6:45 p. m.	Body injured, flying rock.
7	7	10	1 75	7 88	21 00	do.	39	1	1	1	1	1	1	10:00 a. m.	Eye injured, flying rock.
8	June	4	20	10	2 00	23 00	4 00	do.	27	1	1	1	1	1	1	3:30 p. m.	Arm injured, struck nail.
13	July	27	69	10	2 00	61 00	2 00	Fireman	27	1	1	1	1	1	1	3:30 p. m.	Finger cut, steam shovel.
14	May	27	6	10	84 19	8 42	17 00	Conductor	25	1	1	1	1	1	1	Body injured, caught between poles.	
17	2	10	2 00	1 00	do.	55	1	1	1	1	1	1	Wrist injured, overcome by nail.	
17	2	10	1 75	1 75	1 00	Laborer	60	1	1	1	1	1	1	Foot injured, stepped on nail.	
19	2	10	1 90	4 55	do.	63	1	1	1	1	1	1	Toe mashed, falling rail.

PART II OF INDUSTRIAL ACCIDENT REPORT.

Part II contains accidents reported to this Bureau by employers under the General Accident law of 1907, also the accidents reported to the Chief State Factory Inspector under an Act providing for the health, safety and comfort of employees in factories, in force January 1, 1910.

The non-fatal accidents reported to this Bureau entail a loss of thirty or more days time to the injured employee, while those reported to the Chief State Factory Inspector entail a loss of fifteen days time or more.

Table 1 is a summary of all accidents for the year 1913, also the number for five and one-half years previous, or from the time the law has been in force.

TABLE 1—Summary of the Fatal and Non-Fatal Accidents, Showing Number of Causes, Occupations and Employers with Percentage in Each Industry, January 1, to December 31, 1913.

ACCIDENTS TO EMPLOYEES—REPORTS.

- | | |
|--|---|
| § 1. Accidents to be reported to Bureau of Labor Statistics—what report to give. | § 2. Publication of reports.
§ 3. Penalty. |
|--|---|

AN ACT providing for the reporting, compiling and publishing of information concerning accidents to and deaths by accident of employees. Approved May 24, 1907; in force July 1, 1907.

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly:* That it shall be the duty of every person, firm or corporation employing laborers, artisans, mechanics, miners, clerks or any other servants or employees of any character, to make a report to the State Bureau of Labor Statistics of every serious injury entailing a loss of thirty or more days' time, or death of every employee caused by accident while in the performance of any duty or service for such employer within thirty (30) days from the date of such injury or death. Such report shall give the name of the employer, character of business of such employer, where located, date of injury or death, name of person killed or injured, character of employment or service, and cause of such injury or death; and when injury alone, then the character and extent of such injury, residence, nativity and age of the person injured or killed, whether married or single, and, if known, how many persons are dependent upon such employee.

§ 2. It shall be the duty of the State Bureau of Labor Statistics to cause such reports to be made and to enforce the provisions of this Act and shall cause all of such accidents or deaths by accident to be classified into trades or kinds of employment, and shall cause the same to be published at least once a year on or before January 1st.

§ 3. Any person, firm or corporation failing or refusing to make the report as provided in section 1 of this Act, shall be deemed guilty of a misdemeanor and shall, upon conviction, be fined in a sum not less than twenty-five (\$25.00) dollars nor more than two hundred (\$200.00) dollars.

Hurd's Rev. St., p. 1123, chap. 48, sec. 78.

EMPLOYMENT COMMISSION

AN ACT to provide for the health, safety and comfort of employees in factories, mercantile establishments, mills and workshops in this State, and to provide for the enforcement thereof. Approved June 4, 1909, in force January 1, 1910.

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly: That all power driven machinery, including*

all saws, planers, wood shapers, jointers and paper machines, iron mangles, emery wheels, ovens, furnaces, forges and rollers of metal; all projecting set screws on moving parts; all drums, cogs, gearing, belting, shafting, tables fly wheels, flying shuttles and hydro-extractors; all laundry machinery, mill gearing and machinery of every description; all systems of electrical wiring or transmission; all dynamos and other electrical apparatus and appliances; all vats or pans, and all receptacles containing molten or hot or corrosive fluids in any factory, mercantile establishment, mill or workshop, shall be so located wherever possible, as not to be dangerous to employees or shall be properly enclosed, fenced or otherwise protected. All dangerous places in or about mercantile establishments, factories, mills or workshops, near to which any employee is obliged to pass, or to be employed shall, where practicable, be properly enclosed; fenced or otherwise guarded. No machine in any factory, mercantile establishment, mill or workshop, shall be used when the same is known to be dangerously defective, and no repairs shall be made to the active mechanism or operative part of any machine when the machine is in motion.

§ 2. No person shall remove or make ineffective any safeguard required by this Act, during the active use or operation of the guarded machine or device, except for the purpose of immediately making repairs thereto, and all such safeguards so removed shall be promptly replaced.

§ 3. In every factory, mercantile establishment, mill or workshop, effective means shall be provided for immediately disconnecting the power, so that in case of need or accident, any particular machine, group of machines, room or department, can be promptly and effectively shut down.

(a) Where machines require to be started and stopped frequently, they shall, whenever practicable, be provided with tight and loose pulleys, clutch or other effective disengaging device. When provided with tight and loose pulley, the shifting of the belt shall be accomplished by the use of a belt shifter, placed within easy reach of the operator. When a clutch, or other disengaging device is used, an effective means for throwing such device into or out of engagement shall be provided and shall be placed within easy reach of the operator.

(b) Where the machines are direct connected with the prime mover (electric motor, steam, gas or gasoline engine, or other source of power), a switch, throttle, or other power controlling device shall be furnished and shall be placed within easy reach of the operator, or his co-worker.

(c) Where machines are arranged in groups, rooms or departments, and power is supplied by a prime mover, located within the confines of such group, room or department, a switch, throttle, or other power controlling device shall be furnished, and shall be placed within easy reach of the operators affected, so that all shafting, transmitting machinery and machines of such group, room or department, can be simultaneously shut down.

(d) Where machines are arranged in groups, rooms or departments, and are supplied by power through the use of main or line shafts, receiving power from some prime mover, located without the group, room or department, the power receiving wheel of such main or line shaft, shall, wherever possible, be provided with a friction clutch, or other effective power disengaging device, with suitable means for operating the clutch, or power disengaging device, and these means shall be placed within the confines of such group, room or department, and within easy reach of the employees or operatives affected, so that all machines, shafting and other transmissions machinery within such group, room or department, can be simultaneously shut down. In addition to such safeguard, communication, consisting of speaking tubes, electric bells, electric colored lights, or other approved and effective means, shall be provided in all cases covered by this paragraph, between each such group, room or department, and the room in which the engineer, or prime-mover, is located, so that in case of need or accident, the motive power of such group, room or department can be promptly stopped or controlled.

§ 4. All hoist ways, hatch ways, elevator wells and wheel holes in factories, mercantile establishments, mills or workshops, shall be securely fenced, inclosed or otherwise safely protected, and due diligence shall be used to keep all such means of protection closed, except when it is necessary to have the same open, in order that the said hatch ways, elevators or hoisting apparatus may be used. All elevator cabs or cars, whether used for freight or passengers, shall be provided with some device, whereby the car or cab may be held in the event of accident to the shipper rope or hoisting machinery or controlling apparatus.

§ 5. If any elevator, machine, electrical apparatus or system of wiring, or any part or parts thereof, in any factory, mercantile establishment, mill or workshop, are in an unsafe condition, or are not properly guarded, where reasonable to guard the same, the owner or lessee, or his agent, superintendent or other person in charge thereof, shall, upon notice from the Chief State Factory Inspector or the Assistant Chief State Factory Inspector, remedy such unsafe condition within a reasonable time after receiving such notice.

§ 6. No employee of any factory, mercantile establishment, mill or workshop, shall operate or tamper with any machine or appliance with which such employee is not familiar and which is in no way connected with the regular and reasonably necessary duties of his employment, unless it be by and with the direct or reasonably implied command, request or direction of the master or representative or agent.

§ 7. The traversing carriage of any self-acting machine must not be allowed to run out within a distance of eighteen (18) inches from any fixed structure, not being part of the machine, if the space over which it runs out is a space through which any employee is liable to pass, whether in the course of his employment or otherwise.

§ 8. No employee shall take or be allowed to take food into any room, or apartment in any factory, mercantile establishment, mill or workshop, where white lead, arsenic or other poisonous substances or injurious or noxious fumes, dusts or gases under harmful conditions are present, as the result of the business conducted by such factories, mercantile establishments, mills or workshops, and notices to this effect shall be posted in each room or apartment. Employees shall not remain in any such room or apartment during the time allowed for meals, and suitable provision shall be made and maintained by the employer, when practicable, for enabling the employees to take their meals elsewhere in such establishment: *Provided, however,* that this section shall not apply to such employees whose presence during meal hours may be necessary for the proper conduct of such business.

§ 9. That every person, firm or corporation employing females in any factory, mercantile establishment, mill or workshop in this State, shall provide a reasonable number of suitable seats for the use of such female employee, and shall permit the use of such seats by them when they are not necessarily engaged in the active duties for which they are employed, and shall permit the use of such seats at all times when such use would not actually and necessarily interfere with the proper discharge of the duties of such employees, and where practicable, such seats shall be made a permanent fixture and may be so constructed or adjusted that when said seats are not in use, they will not obstruct such female employee, when engaged in the performance of her duties.

§ 10. In every factory, mercantile establishment, mill or workshop, where one or more persons are employed, adequate measures shall be taken for securing and maintaining a reasonable, and as far as possible, equal temperature, consistent with the reasonable requirements of the manufacturing process. No unnecessary humidity which would jeopardise the health of employees shall be permitted.

§ 11. In every room or apartment of any factory, mercantile establishment, mill or workshop, where one or more persons are employed, at least 500 cubic feet of air space shall be provided for each and every person employed therein, and fresh air, to the amount specified in this Act, shall

be supplied in such a manner as not to create injurious drafts, nor cause the temperature of any such room or apartment to fall materially below the average temperature maintained: *Provided*, where lights are used which do not consume oxygen, 250 cubic feet of air space shall be deemed sufficient. All rooms or apartments of any factory, mercantile establishment, mill or workshop, having at least 2,000 cubic feet of air space for each and every person employed in each room or apartment, and having outside windows and doors whose area is at least one-eighth of the total floor area, shall not be required to have artificial means of ventilation; but all such rooms or apartments shall be properly aired before beginning work for the day and during the meal hours. All such rooms, or apartments, having less than 2,000 cubic feet of air space, but more than 500 cubic feet of air space, for each and every person employed therein, and which have outside windows, and doors whose area is at least one-eighth of the floor area, shall be provided with artificial means of ventilation, which shall be in operation when the outside temperature requires the windows to be kept closed, and which shall supply during each working hour at least 1,500 cubic feet of fresh air for each and every person employed therein. All such rooms or apartments, having less than 500 cubic feet of air space for each and every person employed therein, all rooms or apartments having no outside windows or doors, and all rooms or apartments having less than 2,000 cubic feet of air space for *each and every person employed* therein, and in which the outside window and door area is less than one-eighth of the floor area, shall be provided with artificial means of ventilation, which will supply during each working hour throughout the year, at least 1,800 cubic feet of fresh air for each and every person employed therein: *Provided*, that the provisions of the preceding portions of this section shall not apply to storage rooms or vaults: *And, provided, further*, that the preceding portions of this section shall not apply to those rooms or apartments in which manufacturing processes are carried on which from their peculiar nature would be materially interfered with by the provisions of this section. No part of the fresh air supply required by this section shall be taken from any cellar or basement.

The following terms of this section shall be interpreted to mean: The air space available for each person is the total interior volume of a room, expressed in cubic feet, without any deductions for machinery contained therein, divided by the average number of persons employed therein.

Outside windows and doors are those connecting directly with the outside air; the window and door area is the total area of the windows and doors of all outside openings; and the floor area is the total floor area of each room.

§ 12. All factories, mercantile establishments, mills or workshops shall be kept free from any gas or effluvia arising from any sewer, drain, privy or other nuisance on the premises. All poisonous or noxious fumes or gases arising from any process, and all dust of a character injurious to the health of the persons employed, which is created in the course of a manufacturing process, within such factory, mill or workshop, shall be removed, as far as practicable, by either ventilating or exhaust devices.

§ 13. All decomposed, fetid or putrescent matter, and all refuse, waste and sweepings of any factory, mercantile establishment, mill or workshop, shall be removed and disposed of, at least once each day, and in such a manner as not to cause a nuisance; and all cleaning shall be done, as far as possible, outside of working hours; but if done during working hours, shall be done in such a manner as to avoid the unnecessary raising of dust or noxious odors. In every factory, mill or workshop, in which any process is carried on which makes the floors wet, the floor shall be constructed and maintained with due regard to the health of employees, and gratings or dry standing rooms shall be provided if practicable, at points where employees are regularly stationed, and adequate means shall be provided for drainage, and for preventing seepage or leakage to the floors below.

§ 14. In all factories, mercantile establishments, mills or workshops, sufficient and reasonable means of escape in case of fire shall be provided,

by more than one means of egress, and such means of escape shall at all times be kept free from any obstruction and shall be kept in good repair and ready for use, and shall be plainly marked as such.

§ 15. All doors used by employees as entrances to or exist from any factory, mercantile establishment, mill or workshop, of a height of two stories or over, shall open outward, slide or roll, and shall be so constructed as to be easily and immediately opened from within in case of fire or other emergency.

§ 16. Proper and substantial hand rails shall be provided on all stairways in factories, mercantile establishments, mills or workshops, and the treads on all stairways shall be so constructed as to furnish a firm and safe foothold.

§ 17. In all factories, mercantile establishments, mills or workshops, a proper light shall be kept burning by the owner or lessee in all main passageways, main hallways, at all main stair, main stair landings and shafts, and in front of all passenger or freight elevators, upon the entrance floors and upon the other floors, on every work day of the year, from the time that the building is opened for use until the time when it is closed, except at times when the influx of natural light shall make artificial light unnecessary: *Provided*, that when two or more tenants occupy different floors in one building, such elevator shafts need be lighted only on the floors occupied and used by employees.

§ 18. No floor space or any work room in any factory, mercantile establishment, mill or workshop, shall be so overloaded with machinery or other material as thereby to cause serious risk to or endanger the life or limb of any employee, nor shall there be permitted in any such establishment a load in excess of the safe sustaining power of the floors and walls thereof.

§ 19. In all factories, mercantile establishments, mills or workshops, machines must not be placed so closely together as to be a serious menace to those that have to pass between them. Passageways must be of ample width and head room and must be kept well lighted and free from obstructions.

§ 20. Every factory, mercantile establishment, mill or workshop shall be provided with a sufficient number of water closets, or privies, within reasonable access of the persons employed therein, and such water closets, earth closets or privies shall be supplied in the proportion of at least one (1) to every thirty (30) male persons, and one to every twenty-five (25) female persons; and whenever both male and female persons are employed, said water closets and privies shall be provided separate and apart for the use of each sex, and plainly marked by which sex they are to be used; and no person or persons shall be allowed to use the closets or privies assigned to the opposite sex; and such water closets or privies shall be constructed in an approved manner and properly enclosed, and at all times kept in a clean and sanitary condition. The closets or privies, where practicable, shall be located so that they shall have direct ventilation with the outside air; where it is impracticable to locate the closets or privies so as to have direct ventilation with the outside air, they shall be placed in an enclosure; and every such closet or privy shall be properly and effectively disinfected and separately ventilated, and shall be properly lighted by artificial light, except when the influx of natural light makes artificial light unnecessary.

Provided, that nothing in this section shall be construed to prevent any city, town or village, by appropriate ordinance or regulation, from prohibiting the construction, use or maintenance in such city, town or village, of any kind of earth closets, or privies, which may be considered a nuisance or detrimental to the public health.

§ 21. In all factories, mercantile establishments, mills or workshops, adequate washing facilities shall be provided for the employees, where necessary, and in such case in all factories, mills and workshops not less than one spigot, basin or receptacle shall be provided for each thirty (30) employees; and in mercantile establishments, not less than one spigot, basin or receptacle shall be provided for each fifty (50) employees. Where the

labor performed by the employees is of such a character as to make customary or necessary a change of clothing by the employee, there shall be provided sanitary and suitable dressing room or rooms, and both such dressing rooms and washing facilities shall be separately maintained for each sex.

Provided, that nothing in this Act shall be construed as abrogating or repealing any provision of section 5 of an Act entitled, "An Act to provide for the licensing of plumbers, and to supervise and inspect plumbing," approved June 10, 1897, and in force July 1, 1897, or the provisions of any local ordinance or regulation of any city, town or village, requiring approved and sufficient methods of sanitation, light, heat, drainage or ventilation of an equal or superior standard to that required in this Act.

§ 22. It shall be the duty of every person, firm or corporation to which the provisions of this Act may apply, to carry out the same, and make all the changes and additions necessary therefor, and in every way to comply with all the provisions of this Act, and it shall be the duty of the owner of the building in which is located any such factory, mercantile establishment, mill or workshop, to permit any alterations or additions to such building as may be necessary to comply with the provisions of this Act.

§ 23. Whenever, by the provisions of this Act, it is made the duty of any person, firm or corporation within this State, to make or install any alterations, additions or changes, the same shall be made and installed in conformity with the provisions of this Act, and completed within a reasonable time after notification by the Chief State Factory Inspector or his deputy.

§ 24. It shall be the duty of the owner or lessee, or superintendent or person in charge of any factory, mercantile establishment, mill or workshop in this State, to send to the Chief State Factory Inspector, in writing, an immediate report of all accidents or injuries resulting in death. It shall also be the duty of the person in charge of such factory, mercantile establishment, mill or workshop, to report between the 15th and 25th of each month, all accidents or injuries occurring during the previous calendar month, which entailed a loss to the person injured of fifteen (15) consecutive days' time or more. All reports shall state the cause and character of the injury, character of employment and the age and sex of the person injured. No statement contained in any such report shall be admissible in evidence in any action arising out of the death or accident therein reported:

Provided, that any such employer who shall make the reports of accidents, required by this Act, shall not be required to make such reports to any other State officer, board or commission.

§ 25. It shall be the duty of the Chief State Factory Inspector, and of the Assistant Chief State Factory Inspector, and deputy factory inspectors, under the direction and supervision of the Chief State Factory Inspector, to enforce the provisions of this Act, and to prosecute all violations of the same before any magistrate or any court of competent jurisdiction in this State, and for that purpose they and each of them are hereby empowered to visit and inspect, at all reasonable times, all such factories, mercantile establishments, mills and workshops in this State: *Provided*, that whenever any secret process is usual in any factory, mercantile establishment, mill or workshop, the owner shall, whenever asked by the Chief State Factory Inspector or the Assistant Chief State Factory Inspector, file with him an affidavit that the owner has in all respects complied with the provisions of this Act; and such affidavit shall be accepted in lieu of inspection of any room or apartment in which such secret process is carried on.

In the enforcement of the provisions of this Act, the Chief State Factory Inspector, and the Assistant Chief State Factory Inspector, and the deputy factory inspectors, under the direction and supervision of the Chief State Factory Inspector, shall give proper notice in regard to any violation of this Act to the persons owning, operating or managing any such factory, mercantile establishment, mill or workshop. Such notice shall be written

or printed and signed officially by the Chief State Factory Inspector, or the Assistant Chief State Factory Inspector, and said notice may be served by delivering the same to the person upon whom service is to be had, or by leaving at his usual place of abode, or business, an exact copy thereof, or by sending a copy thereof to such person by mail.

When general changes relative to the location and spacing of machinery or to ventilation have been made and such changes comply with the provisions of this Act, such arrangements, conditions remaining the same, shall not be disturbed by any requirement of the Chief State Factory Inspector or his deputies within the period of twelve (12) months.

§ 26. Any person, firm or corporation who shall, or any agent, manager or superintendent of any person, firm or corporation, who, for himself, or for such person, firm or corporation, shall violate any of the provisions of this Act, or who omits or fails to comply with any of the foregoing requirements of this Act, or who disregards any notice of the Chief State Factory Inspector, or of the Assistant Chief State Factory Inspector, when said notice is given in accordance with the provisions of this Act; or who obstructs or interferes with any examination or investigation being made by a State factory inspector, under this Act, or any employee in any such factory, mercantile establishment, mill or workshop; who shall remove or interfere with any guard or protective or sanitary device, required by the provisions of this Act, except as hereinbefore provided, or who shall violate any of the other provisions of this Act, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished for the first offense by a fine of not less than ten dollars (\$10.00) nor more than fifty dollars (\$50.00); and upon conviction of the second or subsequent offense, shall be fined not less than twenty-five (\$25.00) dollars nor more than two hundred (\$200.00) dollars; and in each case shall stand committed until such fine and costs are paid unless otherwise discharged by due process of law.

§ 27. Whenever any inspection of machinery, ways, means, instruments or appliances in, on, about or connected with any factory, mill, mercantile establishment or workshop is required to be made by the ordinances of any city, town or village of a standard equal to that of this Act and the inspection required by such ordinances has been made, then and in every such case such inspection shall be accepted by the Chief State Factory Inspector, the Assistant Chief State Factory Inspector and the deputy factory inspectors as a compliance in that respect with the provisions of this Act; and it shall be the duty of the person for whom such inspection has been made to furnish the Chief State Factory Inspector, or his assistant or deputies, with a copy of the report of inspection made under such ordinances.

§ 28. The provisions of this Act relating to sanitation and ventilation shall not be held to apply to such rooms or apartments of any factory, mercantile establishment, mill or workshop, which are being operated under the supervision of the federal government, by virtue of an Act of Congress entitled, "An Act making appropriations for the Department of Agriculture for the fiscal year ending June thirtieth, nineteen hundred and seven," approved June 30, 1906, or any amendment thereof; nor shall any other of the provisions of this Act so apply respecting matters and conditions over which the federal government now exercises or shall hereafter exercise jurisdiction.

§ 29. The following terms used in this Act shall have the following meaning: The term "factory" means any premises wherein electricity, steam, water or other mechanical power is used to move or work any machinery employed in preparing, manufacturing or finishing, or any process incident to the manufacturing of any article or part of any article; or the altering, repairing, ornamenting or the adapting for sale of any article. The term "mill or workshop" shall include any premises, room or apartment not being a factory as above defined, wherein any labor is exercised by way of trade or for the purpose of gain in or incidental to any process of making, altering, preparing, cleaning, repairing, ornamenting, finishing

or adapting for sale any article or part of any article, and to which or over which building, premises, room or apartment, the employer of the person employed or working therein has the right of access or control: *Provided, however,* that a private house or private room in which manual or other labor is performed by a family dwelling therein, or by any of them for the exclusive use of the members of such family is not a factory, mill or workshop, within this definition. The term "mercantile establishment" shall include all concerns or places where goods, wares or merchandise are purchased or sold, either at wholesale or retail.

§ 30. Copies of this Act shall be printed in English and such other languages as may be necessary to disseminate a general knowledge of the provisions herein set forth and shall be supplied by the Chief State Factory Inspector on application.

§ 31. For the purpose of disseminating a general knowledge of the provisions of this Act among employees, the Chief State Factory Inspector shall have prepared a notice covering the salient features of this Act, which may be in the following form:

NOTICE TO OWNERS AND EMPLOYEES OF MERCANTILE ESTABLISHMENTS, FACTORIES, MILLS AND WORKSHOPS

This notice must be posted in a conspicuous place, in every office and work room of this establishment. The object of this notice is to promote the health, comfort and safety of employees, and require their attention and co-operation.

1. All machinery when in operation is dangerous, and should be considered so by the operator. It should be so protected as to offer the least possible chance for injury to those who operate it.

2. All machinery must be daily inspected by the operator, and upon discovery of any defects, notice of the same shall be given at once to any one in authority, and the machine not used until repaired.

3. All set screws or other dangerous projections on revolving machinery shall be countersunk or otherwise guarded when possible.

4. Means shall be provided and placed within convenient reach for promptly stopping any machine, group of machines, shafting or other power transmitting machinery.

5. Machines must not be placed so closely together as to be a serious menace to those who have to pass between them. Passageways must be of ample width and head room, and must be kept well lighted and free from obstructions.

6. All hatchways, elevator wells or other openings in floors shall be properly enclosed or guarded.

7. The premises must be kept clean and in a sanitary condition.

8. Ample and separate toilet facilities for each sex shall be provided, and toilet rooms must be kept clean, well ventilated and well lighted.

9. Food must not be taken into any work room where white lead, arsenic or other poisonous substances or gases are present under harmful conditions.

10. Proper and sufficient means of escape, in case of fire, shall be provided, and shall be kept free from obstructions.

11. Poisonous and noxious fumes or gases, and dust injurious to health, arising from any process, shall be removed, as far as practicable.

12. All employees are strictly prohibited from attempting to operate, experiment or tamper with machines or appliances with which they are not familiar and which are in no way connected with their regular duties. All employees are prohibited from jumping on or off moving cars, elevators, machines or appliances not under their immediate charge or control. All employees are prohibited from carrying to their place of work acids, chemicals or explosives of any kind which are liable to endanger life or property.

13. Reports must be sent to the office of the State Factory Inspector, as provided by law, and immediate notice of the death of any employee resulting from accident or injuries must be sent to the same office.

The notice shall be printed on card board of suitable character, and the type used shall be such as to make it easily legible. In addition to English, this notice shall be printed in such other languages as may be necessary to make it intelligible to employees. Copies shall be supplied by the Chief State Factory Inspector on application, and must be posted in a conspicuous place in every office and work room of every establishment covered by the provisions of this Act.

§ 32. This Act shall take effect and be in force on and after January 1, 1910.

Hurd's Rev. St., p. 1128, chap. 48, sec. 89.

SENATE BILL NO. 283 AS PASSED AND SIGNED. IN FORCE ON AND AFTER MAY 1, 1912.

AN ACT to promote the general welfare of the People of this State, by providing compensation for accidental injuries or death suffered in the course of employments.

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly:* That any employer covered by the provisions of this Act in this State may elect to provide and pay compensation for injuries sustained by any employee arising out of and in the course of the employment according to the provisions of this Act, and thereby relieve himself from any liability for the recovery of damages, except as herein provided. If, however, any such employer shall elect not to provide and pay the compensation to any employee who has elected to accept the provisions of this Act, according to the provisions of this Act he shall not escape liability for injuries sustained by such employee arising out of and in the course of his employment because

1. The employee assumed the risks of the employer's business.
2. The injury or death was caused in whole or in part by the negligence of a fellow servant.

3. The injury or death was proximately caused by the contributory negligence of the employee, but such contributory negligence shall be considered by the jury in reducing the amount of damages.

- a. Every such employer is presumed to have elected to provide and pay the compensation according to the provisions of this Act, unless and until notice in writing of his election to the contrary is filed with the State Bureau of Labor Statistics.

- b. Every employer within the provisions of this Act failing to file such notice shall be bound hereby as to all his employees who shall elect to come within the provisions of the Act until January 1st of the next succeeding year and for terms of each year thereafter: *Provided*, any such employer may elect to discontinue the payments of compensation herein provided only at the expiration of any such calendar year, by filing notice of his intention to discontinue such payments, with the State Bureau of Labor Statistics, at least sixty days prior to the expiration of any such calendar year, and by posting such notice in the plant, shop, office or place of work, or by personal service, in written or printed form, upon such employee, at least sixty days prior to the expiration of any such calendar year.

- c. In the event any employer elects to provide and pay compensation provided in this Act, then every employee of such employer, as a part of his contract of hiring or who may be employed at the time of the taking effect of this Act and the acceptance of its provisions by the employer, shall be deemed to have accepted all the provisions of this Act and shall be bound thereby unless within thirty days after such hiring and after the taking effect of this Act, he shall file a notice to the contrary with the secretary of the State Bureau of Labor Statistics, whose duty it shall be to immediately notify the employer, and if so notified, the employer shall

not be deprived of any of his common law or statutory defenses, and until such notice to the contrary is given to the employer, the measure of liability of the employer for any injury shall be determined according to the compensation provisions of this Act: *Provided, however*, that before any such employee shall be bound by the provisions of this Act, his employer shall either furnish to such employee personally at the time of his hiring, or post in a conspicuous place at the plant or in the room or place where such employee is to be employed, a legible statement of the compensation provisions of this Act.

§ 2. The provisions of this Act shall apply to every employer in the State engaged in the building, maintaining or demolishing of any structure; in any construction or electrical work; in the business of carriage by land or water and loading and unloading in connection therewith (except as to carriers who shall be construed to be excluded herefrom by the laws of the United States relating to liability to their employees for personal injuries while engaged in interstate commerce where such laws are held to be exclusive of all State regulations providing compensation for accidental injuries or death suffered in the course of employment); in operating general or terminal store-houses; in mining, surface mining, or quarrying; in any enterprise, or branch thereof, in which explosive materials are manufactured, handled or used in dangerous quantities; in any enterprise wherein molten metal or injurious gases or vapors or inflammable fluids are manufactured, used, generated, stored or conveyed in dangerous quantities; and in any enterprise in which statutory regulations are now or shall hereafter be imposed for the guarding, using or the placing of machinery or appliances, or for the protection and safe-guarding of the employees therein, each of which employments is hereby determined to be especially dangerous, in which from the nature, conditions and means of prosecution of the work therein, extraordinary risks to life and limb of the employee engaged therein are inherent, necessary or substantially unavoidable, and as to each of which employments it is deemed necessary to establish a new system of compensation for accidents to the employees therein.

§ 3. No common law or statutory right to recover damages for injury or death sustained by any employee while engaged in the line of his duty as such employee other than the compensation herein provided shall be available to any employee who has accepted the provisions of this Act or to any one wholly or partially dependent upon him or legally responsible for his estate: *Provided*, that when the injury to the employee was caused by the intentional omission of the employer, to comply with statutory safety regulations, nothing in this Act shall affect the civil liability of the employer. If the employer is a partnership, such omission must be that of one of the partners thereof, and if a corporation, that of any elective officer thereof.

§ 4. The amount of compensation which the employer who accepts the provisions of this Act shall pay for injury to the employee which results in death, shall be:

a. If the employee leaves any widow, child or children, or parents or other lineal heirs to whose support he had contributed within five years previous to the time of his death, a sum equal to four times the average annual earnings of the employees, but not less in any event than one thousand five hundred dollars, and not more in any event than three thousand five hundred dollars. Any weekly payments, other than necessary medical or surgical fees, shall be deducted in ascertaining such amount payable on death.

b. If the employee leaves collateral heirs dependent upon his earnings, such a percentage of the sum provided in section "a" as the contributions which deceased made to the support of these dependents, bore to his earnings.

c. If the employee leaves no widow or child or children, parents or lineal or collateral heirs dependent upon his earnings, a sum not to exceed one hundred and fifty dollars for burial expenses.

d. All compensation provided for in this section to be paid in case injury results in death, shall be paid in installments equal to one-half the average earnings, at the same intervals at which the wages or earnings of the employee were paid while he was living; or if this shall not be feasible, then the installments shall be paid weekly.

e. The compensation to be paid for injuries which result in death, as provided for in this section, shall be paid to the personal representative of the deceased employee and shall be distributed by such personal representative to the beneficiaries entitled thereto, in accordance with the laws of this State relating to the descent and distribution of personal property.

§ 5. The amount of compensation which the employer who accepts the provisions of this Act shall provide and pay for injury to the employee resulting in disability shall be:

a. Necessary first aid, medical, surgical and hospital services, also medicine and hospital services for a period not longer than eight weeks, not to exceed, however, the amount of \$200.00, also necessary services of a physician or surgeon during such period of disability, unless such employee elects to secure his own physician or surgeon.

b. If the period of disability lasts for more than six working days, and such fact is determined by the physician or physicians, as provided in section 9, compensation equal to one-half of the earnings, but not less than \$5.00 nor more than \$12.00 per week, beginning on the eighth day of disability, and as long as the disability lasts, or until the amount of compensation paid equals the amount payable as a death benefit.

c. If any employee, by reason of any accident arising out of and in the course of his employment, receive any serious and permanent disfigurement to the hands or face, but which injury does not actually incapacitate the employee from pursuing his usual or customary employment so that it is possible to measure compensation in accordance with the scale of compensation and the methods of computing the same herein provided, such employee shall have the right to resort to the arbitration provisions of this Act for the purpose of determining a reasonable amount of compensation to be paid to such employee, but not to exceed one-quarter ($\frac{1}{4}$) the amount of his compensation in case of death.

d. If after the injury has been received it shall appear upon medical examination as provided for in section 9, that the employee has been partially, though permanently incapacitated from pursuing his usual and customary line of employment, he shall receive compensation equal to one-half of the difference between the average amount which he earned before the accident, and the average amount which he is earning, or is able to earn in some suitable employment or business after the accident, if such employment is secured.

e. In the case of complete disability which renders the employee wholly and permanently incapable of work, compensation for the first eight years after the day the injury was received, equal to 50 per cent of his earnings, but not less than \$5.00 nor more than \$12.00 per week. If complete disability continues after the payment of a sum equal to the amount of the death benefit or after the expiration of the eight years, then a compensation during life, equal to 8 per cent of the death benefit which would have been payable had the accident resulted in death. Such compensation shall not be less than \$10.00 per month and shall be payable monthly.

(1) In case death occurs before the total of the payments made equals the amount payable as a death benefit, as provided in section 4, article a, then in case the employee leaves any widow, child or children, or parents, or other lineal heirs, they shall be paid the difference between the compensation for death and the sum of such payments, but in no case shall this sum be less than \$500.00.

(2) In cases of complete disability, after compensation has been paid at the specified rate for a term of at least six months, the employee shall have the privilege of filing a petition in accordance with article d of section 4 of this Act, asking for a lump sum payment of the difference

between the sum of the payments received and the compensation to which he was entitled when such permanent disability has been definitely determined. For the purpose of this section, blindness or the total irrecoverable loss of sight, the loss of both feet at or above the ankle, the loss of both hands at or above the wrist, the loss of one hand and one foot, an injury to the spine resulting in permanent paralysis of the legs or arms, and a fracture of the skull resulting in incurable imbecility or insanity, shall be considered complete and permanent disability: *Provided*, these specific cases of complete disability shall not, however, be construed as excluding other cases.

(3) In fixing the amount of the disability payments, regard shall be had to any payments, allowance or benefit which the employee may have received from the employer during the period of his incapacity, except the expenses of necessary medical or surgical treatment. In no event, except in cases of complete disability as defined above, shall any weekly payment payable under the compensation plan in this section provided exceed \$12.00 per week, or extend over a period of more than eight years from the date of the accident. In case an injured employee shall be incompetent at the time when any right or privilege accrues to him under the provisions of this Act, a conservator or guardian of the incompetent, appointed pursuant to law, may on behalf of such incompetent, claim and exercise any such right or privilege with the same force and effect as if the employee himself had been competent and had claimed or exercised said right or privilege; and no limitations of time by this Act provided, shall run so long as said incompetent employee had no conservator or guardian.

§ 5½. Any person entitled to compensation under this Act, or any employer who shall be bound to pay compensation under this Act, who shall desire to have such compensation, or any part thereof, paid in a lump sum, may petition any court of competent jurisdiction of the county in which the employee resided or worked at the time of disability or death, asking that such compensation be so paid, and if upon proper notice to the interested parties, and a proper showing made before such court, it appears to the best interest of the parties that such compensation be so paid, the court shall order payment of a lump sum, and where necessary, upon proper application being made, a guardian, conservator or administrator, as the case may be, shall be appointed for any person under disability who may be entitled to any such compensation, and an employer bound by the terms of this Act, and liable to pay such compensation, may petition for such appointment where no such legal representatives have been appointed or acting for such party or parties so under disability.

§ 6. The basis for computing the compensation provided for in sections 4 and 5 of the Act shall be as follows:

a. The compensation shall be computed on the basis of the annual earnings which the injured person received as salary, wages or earnings in the employment of the same employer during the year next preceding the injury.

b. Employment by the same employer shall be taken to mean employment by the same employer in the grade in which the employee was employed at the time of the accident, uninterrupted by absence from work due to illness or any other unavoidable cause.

c. The annual earnings if not otherwise determinable shall be regarded as 300 times the average daily earnings in such computation.

d. If the injured person has not been engaged in the employment for a full year immediately preceding the accident, the compensation shall be computed according to the annual earnings which persons of the same class in the same or in neighboring employments of the same kind have earned during such period. And if this basis of computation is impossible, or should appear to be unreasonable, three hundred times the amount which the injured person earned on an average those days when he was working during the year next preceding the accident, shall be used as a basis for the computation.

e. In the case of injured employees who earn either no wage or less than three hundred times the usual daily wage or earnings of the adult day laborers in the same line of industry of that locality, the yearly wage shall be reckoned as three hundred times the average daily local wage.

f. As to employee in employments in which it is the custom to operate for a part of the whole number of working days in each year, such number shall be used instead of three hundred as a basis for computing the annual earnings, provided the minimum number of days which shall be used for the basis of the year's work shall not be less than two hundred.

g. Earnings, for the purpose of this section, shall be based on the earnings for the number of hours commonly regarded as a day's work for that employment, and shall exclude overtime earnings. The earnings shall not include any sum which the employer has been accustomed to pay the employee to cover any special expense entailed on him by the nature of his employment.

h. In computing the compensation to be paid to any employee who, before the accident for which he claims compensation, was disabled and drawing compensation under the terms of this Act, the compensation for each subsequent injury shall be apportioned according to the proportion of incapacity and disability caused by the respective injuries which he may have suffered.

§ 7. The compensation herein provided shall be the measure of the responsibility which the employer has assumed for injuries or death that may occur to employees in his employment subject to the provisions of this Act, and it shall not be in any way reduced by contributions from employees.

§ 8. If it is proved that the injury to the employee resulted from his deliberate intention to cause such injury, no compensation with respect to that injury shall be allowed.

§ 9. Any employee entitled to receive disability payments shall be required if requested by the employer to submit himself for examination at the expense of the employer to a duly qualified medical practitioner or surgeon selected by the employer, at a time and place reasonably convenient for the employee, as soon as practicable after the injury, and also one week after the first examination, and thereafter at intervals not oftener than once every four weeks, which examinations shall be for the purpose of determining the nature, extent and probable duration of the injury received by the employee, and for the purpose of adjusting the compensation which may be due the employee from time to time for disability according to the provisions of sections 4 and 5 of this Act: *Provided, however,* that such examination shall be made in the presence of a duly qualified medical practitioner or surgeon provided and paid for by the employer, if such employee so desires, and in the event of a disagreement between said medical practitioners or surgeons as to the nature, extent or probable duration of said injury or disability, they may agree upon a third medical practitioner or surgeon, and, failing to agree upon such third medical practitioner or surgeon, the judge of the county court of the county where the employee resided or was employed at the time of the injury, shall within six days after petition filed in such court for that purpose, select a third medical practitioner or surgeon and the majority report of such three physicians as to the nature, extent and probable duration of such injury or disability shall be used for the purpose of estimating the amount of compensation payable under this Act. If the employee refuses so to submit himself to examination or unnecessarily obstructs the same, his right to compensation payments shall be temporarily suspended until such examination shall have taken place, and no compensation shall be payable under this Act during such period.

§ 10. Any question of law or fact arising in regard to the application of this law in determining the compensation payable hereunder shall be determined either by agreement of the parties or by arbitration as herein provided. In case any such question arises which cannot be settled by agreement, the employee and the employer shall each select a disinterested

party and the judge of the county court or other court of competent jurisdiction of the county where the injured employee resided or worked at the time of the injury, shall appoint a third disinterested party, such persons to constitute a board of arbitrators for the purpose of hearing and determining all such disputed questions of law or fact arising in regard to the application of this law in determining the compensation payable hereunder; and it shall be the duty of both employee and employer to submit to such board of arbitrators not later than ten days after the selection and appointment of such arbitrators all facts or evidence which may be in their possession or under their control, relating to the questions to be determined by said arbitrators; and said board of arbitrators shall hear all the evidence submitted by both parties and they shall have access to any books, papers or records of either the employer or the employee showing any facts which may be material to the questions before them, and they shall be empowered to visit the place or plant where the accident occurred, to direct the injured employee to be examined by a regular practicing physician or surgeon, and to do all other acts reasonably necessary for a proper investigation of all matters in dispute. A copy of the report of the arbitrators in each case shall be prepared and filed by them with the State Bureau of Labor Statistics, and shall be binding upon both the employer and employee except for fraud and mistake: *Provided*, that either party to such arbitration shall have the right to appeal from such report or award of the arbitrators to the circuit court or the court that appointed the third arbitrator of the county where the injury occurred by filing a petition in such court within twenty days after the filing of the report of the arbitrators, and upon filing a good and sufficient bond, in the discretion of the court, and upon such appeal the questions in dispute shall be heard *de nova*, and either party may have a jury upon filing a written demand therefor with his petition.

§ 11. Any person entitled to payment under the compensation provisions of this Act from any employer shall have the same preferential claim therefor against the property of the employer as is now allowed by law for a claim by such person against such employer for unpaid wages or for personal services, such preference to prevail against wage claims of all other employees, not entitled to compensation for injuries, and the payments due under such compensation provisions shall not be subject to attachment, levy, execution, garnishment or satisfaction of debts, except to the same extent and in the same manner as wages or earnings for personal service are now subject to attachment, levy, execution, garnishment or satisfaction of debts, under the laws of this State, and shall not be assignable. Any right to receive compensation hereunder shall be extinguished by the death of the person or persons entitled thereto, subject to the provisions of this Act relative to compensation for death received in the course of employment. No claim of any attorney at law for services in securing a recovery under this Act shall be an enforceable lien thereon unless the amount of the same be approved in writing by a judge of a court of record, which approval may be made in term time or vacation.

§ 12. Any contract or agreement made by any employer or his agent or attorney with any employee or any other beneficiary of any claim under the provisions of this Act within seven days after the injury shall be presumed to be fraudulent.

§ 13. No employee or beneficiary shall have power to waive any of the provisions of this Act in regard to the amount of compensation which may be payable to such employee or beneficiary hereunder.

§ 14. No proceedings for compensation under this Act shall be maintained unless notice of the accident has been given to the employer as soon as practicable after the happening thereof; and during such disability, and unless claim for compensation has been made within six months after the injury, except that in case of an accident resulting in temporary disability, notice of such accident must be given to the employer within thirty days after said accident; or in case of the death of the employee or in the event of his incapacity, within six months after such death or incapacity, or in the event that payments have been made under the provisions of this Act, within six months after such payments have ceased. No want or defect or

inaccuracy of such notice shall be a bar to the maintenance of proceedings by arbitration or otherwise by the employee, unless the employer proves that he is unduly prejudiced in such proceedings by such want, defect or inaccuracy. Notice of the accident shall, in substance apprise the employer of the claim of compensation made and shall state the name and address of the employee injured, the approximate date and place of the accident, if known, and in simple language the cause thereof; which notice may be served personally or by registered mail, addressed to the employer at his last known residence or place of business: *Provided*, that the failure on the part of any person entitled to such compensation to give such notice shall not relieve the employer from his liability for such compensation, when the facts and circumstances of such accident are known to such employer or his agent, supervising work in which such employee was engaged at the time of the injury.

§ 15. This Act shall not affect or disturb the continuance of any existing insurance, mutual aid, benefit, or relief association or department, whether maintained in whole or in part by the employer or whether maintained by the employees, the payment of benefits of such association or department being guaranteed by the employer or by some person, firm or corporation for him: *Provided*, the employer contributes to such association or department an amount sufficient to insure the employees or other beneficiary the full compensation herein provided, exclusive of the cost of the maintenance of such association or department without any expense to the employee. This Act shall not prevent the organization and maintaining under the insurance law of this State of any benefit or insurance company for the purpose of insuring against the compensation provided for in this Act, the expense of which is maintained by the employer. This Act shall not prevent the organization or maintaining under the insurance laws of this State of any voluntary mutual aid, benefit or relief association among employees for the payment of additional accident or sick benefits.

No existing insurance, mutual aid, benefit or relief association or department shall, by reason of anything herein contained, be authorized to discontinue its operation without first discharging its obligations to any and all persons carrying insurance in the same or entitled to relief or benefits therein.

Any contract of employment, relief benefit, or insurance or other device whereby the employee is required to pay any premium or premiums for insurance against the compensation provided for in this Act shall be null and void, and any employer withholding from the wages of any employee any amount for the purpose of paying any such premium shall be guilty of a misdemeanor and punishable by a fine of not less than ten dollars nor more than twenty-five dollars in each offense in the discretion of the court.

§ 16. Any person who shall become entitled to compensation under the provisions of this Act, shall, in the event of his inability to recover such compensation from the employer on account of his insolvency, be subrogated to all the rights of such employer against any insurance company or association which may have insured such employer against loss growing out of the compensation required by the provisions of this Act to be paid by such employer, and in such case only, a payment of the compensation that has accrued to the person entitled thereto in accordance with the provisions of this Act, shall relieve such insurance company from such liability.

§ 17. Where the injury for which compensation is payable under this Act was caused under circumstances creating a legal liability in some person, other than the employer, to pay damages in respect thereof:

a. The employee or beneficiary may take proceedings both against that person to cover damages and against the employer for compensation, but the amount of the compensation which he is entitled to under this Act shall be reduced by the amount of damages recovered.

b. If the employee or beneficiary has recovered compensation under this Act, the employer by whom the compensation was paid or the person who has been called upon to pay the indemnity under sections 4 and 5 of
